There are so many versions of documents for the workshop, I can't keep track. I think the bullets for my presentation need to be fixed because it's mixing background information on the DNT guideline study with the presentation of the NAMs. I would update to the following bullets and remove the "additional points" they have after the bullets:

Thank you Maureen and others for providing feedback on the draft report! I plan on sending all of our feedback on the report to ICF tomorrow morning. ICF also requested feedback from the presenters outside of EPA on the report.
